

This bittersweet drama, *A Rose to Georgia* is about love, friendship, loyalty, and justice. The two main protagonists are an aging *Thelma & Louise* who takes on a head nurse who makes *One Flew Over The Cuckoo's Nest*, Nurse Ratched look like Florence Nightingale.

An elderly woman, who enjoys her solitude, escapes from a nursing home on a wild ride for justice. Problem is –she can't get rid of her clingy roommate.

Rose Miller, our female curmudgeon, is salty and brave with a demeanor that makes her both lovable and vexing at the same time. The cantankerous Rose with mysophobia of the feet is forced to team up with Georgia Mae Lee, a wheelchair bound, footless, black firebrand. These two feisty broads gather evidence of patient abuse against a mean spited bully and control freak named, Nurse Beckah. They get the goods on their much younger foes using wit and sheer gumption. The two ladies then make a trek to deliver the information to the authorities and end up embroiled in several adventures along the way.
